EXPERIENCE

Chris Moto | Lead UX UI Designer

September 2025-Present

Conducted ideation, strategy definition, wireframing, and development of website.
Developed a website that would be used to view services, pricings, scheduling, and contact information for a local motorcycle shop in San Luis Obispo.

Best Buy Geek Squad | Repair Agent

June 2024-Present

Computer repair agent, which includes diagnosing client device issues, continuous research, hardware repairs, data transfers, tutoring clients on device usage, and overall knowledge of computer and phone software and programs.
Strong communication skills to understand and problem solve with clients on both software and hardware issues they might face.

Independent Study | UX UI Designer

September 2025-2026

Created three different websites based on prompts provided by a professor, which included creating a long website, a bad website, and a website that changes / animates.
Demonstrated a professional knowledge of typography and web layout guidelines.
Used HTML, CSS, and Java to create intriguing, interactive websites.

Design Lab | Graphic Designer & Researcher

September 2024-2025

Reviewed and edited prior design guidelines to be accessible and web friendly.
Created new guidelines and presented alternative styles.
Collaborated with the design and social media team to mockup and develop club advertisement.
